10 Page: General Finance (PGID 6540918)

Have you ever invested in stocks or funds? (q_10690530 - Type 111)

Variable name v_114	External variable name X.GF1	int	X.GF1
		1	Yes
		2	No

How likely is it that you would invest in stocks. (q_10700859 - Type 111)

Variable name v_241	External variable name G.F1b	int	X.GF1b
		1	Very likely
		2	likely
		3	Not Likely
		4	Very unlikely

Neither agree nor disagree with each of the following statements? (Please mark one answer in each row): (q_10700904 - Type 311)

Variable name v_242	External variable name G.F1c	int	Investing in stocks is only for gamblers
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree

Variable name	External variable name	int	
v_243	G.F1d		Making money by investing in stocks is morally questionable because whenever I gain, somebody else loses
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree
Variable name	External variable name	int	
v_244	G.F1e		I make financial decisions on my own
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree
Variable name	External variable name	int	
v_245	G.F1f		In the long run, stocks yield high returns
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree
Variable name	External variable name	int	
v_246	G.F1g		If a friend of mine buys stocks, I would also consider doing it
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree
Variable name	External variable name	int	
v_247	G.F1h		Investing in the stock market is a perfectly normal way to earn money
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree

How many people could you turn to if you had financial problems? (q_10690531 - Type 141)

Variable name	External variable name	varchar (with type check: Integer)	
v_115	X.GF2		X.GF2

11 Page: How do you think about risk (PGID 6552378)

Imagine you are offered the following lottery. Please indicate the maximum amount you are willing to

pay for the lottery.  (q_11820756 - Type 141)

Variable name v_940	External variable name dupl1_X.R1a	varchar (with type check: Integer)	X.R1a
------------------------	---------------------------------------	------------------------------------	-------

Imagine you are offered the following lottery. Please indicate the maximum amount you are willing to pay for the lottery.  (q_11820757 - Type 141)

Variable name v_941	External variable name dupl1_X.R1b	varchar (with type check: Integer)	X.R1b
------------------------	---------------------------------------	------------------------------------	-------

The following lottery involves losses. Imagine you have to play these Lotteries unless you pay a certain amount of money beforehand. What is the maximum amount you would be willing to pay, in order to avoid playing the lottery? This corresponds to buying an insurance that saves you from suffering

potential losses.  (q_11820758 - Type 141)

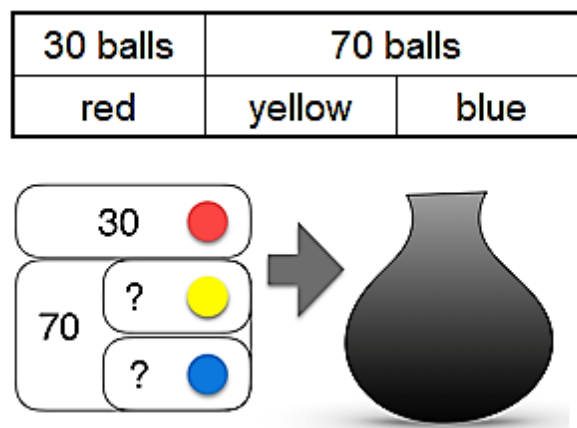

Variable name v_942	External variable name dupl1_X.R2	varchar (with type check: Integer)	X.R2
------------------------	--------------------------------------	------------------------------------	------

In the following Lotteries, you have a 50% chance to win or lose money. The potential loss is given.

Please state the minimum amount X for which you would be willing to accept the lottery.  (q_11820759 - Type 141)

Variable name v_943	External variable name dupl1_X.R3	varchar (with type check: Integer)	X.R3
------------------------	--------------------------------------	------------------------------------	------

In an urn, there are 100 balls with three colors (red, yellow, and blue). 30 balls are red, whereas the remaining 70 consist of yellow and blue balls.

Imagine a ball is randomly drawn from the urn. You are offered the following two Lotteries. Which lottery would you prefer? A. If the color of this ball is red, you win ₹2000; otherwise, you win nothing. B. If the color of this ball is yellow, you win ₹2000; otherwise, you win nothing. I prefer (q_11820760 - Type 111)

Variable name v_944	External variable name dupl1_X.R4	int	X.R4
		1	A
		2	B

Which offer would you prefer: A: a payment of ₹68000 this month B: a payment of ₹76000 next month. I prefer: (q_11820761 - Type 111)

monatlicher (q_10620701 - Type 111)

Variable name	External variable name	int	X.T1
v_945	dupl1_X.T1		
		1	A
		2	B

12 Page: Job Questions -01 (PGID 6540920)

Now, we would like to ask you some job-related questions. Please think of an ideal job, disregarding your present job (if you have one). In choosing an ideal job, how important you would say it is to you to have the following: (Please select one of the answers in each row) (q_10691867 - Type 311)

Variable name	External variable name	int	Have sufficient time for your personal or family life
v_123	X.HA1		
		1	Of utmost important
		2	Very important
		3	Of moderate importance
		4	Of little importance
		5	Of very little or no importance
Variable name	External variable name	int	Have good physical working conditions (good ventilation and lighting, adequate work space, etc.)
v_124	X.HA2		
		1	Of utmost important
		2	Very important
		3	Of moderate importance
		4	Of little importance
		5	Of very little or no importance
Variable name	External variable name	int	Have a good working relationship with your direct superior
v_125	X.HA3		
		1	Of utmost important
		2	Very important
		3	Of moderate importance
		4	Of little importance
		5	Of very little or no importance
Variable name	External variable name	int	Have security of employment
v_126	X.HA4		
		1	Of utmost important
		2	Very important
		3	Of moderate importance
		4	Of little importance
		5	Of very little or no importance
Variable name	External variable name	int	Work with people who cooperate well with one another
v_127	X.HA5		
		1	Of utmost important
		2	Very important
		3	Of moderate importance
		4	Of little importance

5 Of very little or no importance

Variable name	External variable name	int	
v_128	X.HA6		Be consulted by your direct superior in his/her decisions

1 Of utmost important

2 Very important

3 Of moderate importance

4 Of little importance

5 Of very little or no importance

Variable name	External variable name	int	
v_129	X.HA7		Have an opportunity for advancement to higher level jobs

1 Of utmost important

2 Very important

3 Of moderate importance

4 Of little importance

5 Of very little or no importance

Variable name	External variable name	int	
v_130	X.HA8		Have an element of variety and adventure in the job

1 Of utmost important

2 Very important

3 Of moderate importance

4 Of little importance

5 Of very little or no importance

13 Page: Job Questions -02 (PGID 6540921)

Experience during your work (Please mark one answer in each row): (q_10694985 - Type 311)

Variable name	External variable name	int	
v_131	X.HB11		How often do you feel nervous or tense at work?

1 Never

2 Seldom

3 Sometimes

4 Usually

5 Always

Variable name	External variable name	int	
v_132	X.HB12a		How frequently are you afraid to express disagreement with superiors?

1 Never

2 Seldom

3 Sometimes

4 Usually

5 Always

Variable name	External variable name	int	
v_133	X.HB12b		How frequently, in your experience, are subordinates afraid to express disagreement with their superiors?

1 Never

2 Seldom

3 Sometimes

4 Usually

5 Always

To what extent do you agree or disagree with each of the following statements? (Please mark one answer in each row): (q_10694992 - Type 311)

Variable name External variable name int Most people can be trusted
v_136 X.HB13

1 Strongly agree

2 Agree

3 Undecided

4 Disagree

5 Strongly disagree

Variable name External variable name int One can be a good manager without having precise answers to most questions that subordinates may raise about their work
v_137 X.HB14

1 Strongly agree

2 Agree

3 Undecided

4 Disagree

5 Strongly disagree

Variable name External variable name int An organization structure in which certain subordinates have two bosses should be avoided at all costs
v_138 X.HB15

1 Strongly agree

2 Agree

3 Undecided

4 Disagree

5 Strongly disagree

Variable name External variable name int Competition between employees usually does more harm than good
v_139 X.HB16

1 Strongly agree

2 Agree

3 Undecided

4 Disagree

5 Strongly disagree

Variable name External variable name int A company's or organization's rules should not be broken even when the employee thinks it is in the company's best interest
v_140 X.HB17

1 Strongly agree

2 Agree

3 Undecided

4 Disagree

5 Strongly disagree

Variable name External variable name int When people have failed in life it is often their own fault
v_141 X.HB18

1 Strongly agree

- | | |
|---|-------------------|
| 2 | Agree |
| 3 | Undecided |
| 4 | Disagree |
| 5 | Strongly disagree |

14 Page: Patriotism (PGID 6540922)

We all should be willing to fight for our country, whether it is right or wrong. (q_10695006 - Type 111)

Variable name	External variable name	int	X.P1
v_142	X.P1		
		1	completely agree
		2	mostly agree
		3	mostly disagree
		4	completely disagree

15 Page: Financial literacy (PGID 6540923)

The next couple of questions include some tricky ones, but please try your best. We start with some questions about finance: Suppose you had ₹ 100 in a savings account and the interest rate was 2% per year. After 5 years, how much do you think you would have in the account if you left the money to grow? (q_10695058 - Type 111)

Variable name	External variable name	int	X.F1
v_144	X.F1		
		1	More than 102₹
		2	Exactly 102₹
		3	Less than 102₹
		4	Do not know

Imagine that the interest rate on your savings account was 1% per year and inflation was 2% per year. After 1 year, how much would you be able to buy with the money in this account? (q_10695061 - Type 111)

Variable name	External variable name	int	X.F2
v_145	X.F2		
		1	More than today
		2	Exactly the same
		3	Less than today
		4	Do not know

Please tell me whether this statement is true or false. "Buying a single company's stock usually provides a safer return than a stock mutual fund." (q_10695062 - Type 111)

Variable name	External variable name	int	X.F3
v_146	X.F3		
		1	True
		2	False
		3	Do not know

16 Page: Berlin Numeracy Test (PGID 6540924)

We will ask you now some statistical questions: Please state the right answer in percent. Out of 1000 people in a village 500 are a member of the choir. Out of these 500 members, 100 are men. Out of the 500 people that don't sing in the choir 300 are men. How big is the probability that a randomly picked man is a member of the choir? Please state the right answer in percent (rounded). (q_10695167 - Type 141)

Variable name v_147	External variable name X.BN.1.1	varchar (with type check: Integer)	X.BN.1.1
------------------------	------------------------------------	------------------------------------	----------

17 Page: X.BN.1.2.a (PGID 6540925)**17.1 Page: Berlin Numeracy Test-01a (PGID 6540926)**

Imagine we are throwing a five-sided dice 50 times. On average, out of these 50 throws how many times would this five-sided dice show an odd number (1, 3 or 5)? (q_10721818 - Type 141)

Variable name v_612	External variable name X.BN.1.2a	varchar (with type check: Integer)	X.BN.1.2a
------------------------	-------------------------------------	------------------------------------	-----------

18 Page: X.BN.1.1.b (PGID 6540927)**18.1 Page: Berlin Numeracy Test-01b (PGID 6540928)**

Imagine you are throwing a biased dice (with six sides) 70 times. The probability that the dice rolls the number 6 is twice as high as the probability for each of the other numbers. On average, out of these 70 throws how many times would the dice show the number 6? (q_10731994 - Type 141)

Variable name v_828	External variable name X.BN.1.2b	varchar (with type check: Integer)	X.BN.1.2b

29 Page: X.FD0 (PGID 6540942)

Suppose you can go back to the past through the time machine and choose to stay at any time between 2002 and 2012. You will receive ₹5000 as a start-up capital, you can deposit the money for five years, and the final amount you may receive will be the value of the principal after five years. (For example, if you land in 2008, then the ₹5000 will be invested as you indicated on January 1, 2008. Your payout will then be the value of your investment on January 1, 2013, exactly five years later.) How would you divide your ₹5000 into the following investments? (q_10700791 - Type 143)

Variable name v_236	External variable name X.FD6	varchar (with type check: Integer)	into a savings account
Variable name v_237	External variable name X.FD7	varchar (with type check: Integer)	into government bonds with a term of 5 years
Variable name v_238	External variable name X.FD8	varchar (with type check: Integer)	into all stocks of the Indian stock market index SENSEX
Variable name v_239	External variable name X.FD9	varchar (with type check: Integer)	into all stocks of the American stock market index S&P 500

36.14 Page: F3.D Social Networks (PGID 6540964)

Social networks like Facebook offer services to contact friends or sharing information about private events or images. Some people say that these services help them to stay in touch. How much would you agree? (q_10723187 - Type 111)

Variable name	External variable name	int	F3.D2
v_687	F3.D2		

- | | |
|---|----------------------------|
| 1 | Disagree strongly |
| 2 | Disagree a little |
| 3 | Neither disagree nor agree |
| 4 | Agree a little |
| 5 | Strongly agree |

Some people express concerns regarding the safety of the private information shared. How much would you agree? (q_10723188 - Type 111)

Variable name	External variable name	int	F3.D3
v_688	F3.D3		

- | | |
|---|----------------------------|
| 1 | Disagree strongly |
| 2 | Disagree a little |
| 3 | Neither disagree nor agree |
| 4 | Agree a little |
| 5 | Strongly agree |

Some people worry that social media spread false information. How much do you agree? (q_10723189 - Type 111)

Variable name	External variable name	int	F3.D4
v_689	F3.D4		

- | | |
|---|----------------------------|
| 1 | Disagree strongly |
| 2 | Disagree a little |
| 3 | Neither disagree nor agree |
| 4 | Agree a little |
| 5 | Strongly agree |

Some people think that the content of social media should be strictly controlled by the state. How much do you agree? (q_10723191 - Type 111)

Variable name	External variable name	int	F3.D5

Consider the following pilot project of a state in collaboration with telecommunication firms: People who have not complied with court orders to repay the money (whether a small or big amount) were punished as follows: the firm changed these people's phone lines so that if someone calls them, the caller first hears a message that the person he/she is trying to reach has been blacklisted. The message then asks the caller to persuade them to comply with the court order. Only afterward they are connected to the person they wanted to talk to. How do you evaluate/view this proposal? (q_10723194 - Type 111)

Variable name External variable name int F3.E1
v_693 F3.E1

1 Very positive

2 Positive

3 Neutral

4 Negative

5 Very negative

36.16 Page: F3.E Other technologies -1 (PGID 6540966)

A proposal suggests to equip all streets with cameras and to use artificial intelligence computer

software to automatically detect any traffic violations. Face recognition software would then determine the culprit and fine him immediately. Experts say that this will be technologically feasible very soon. How do you evaluate/view this proposal? (q_10723195 - Type 111)

Variable name	External variable name	int	F3.E2
v_694	F3.E2		
		1	Very positive
		2	Positive
		3	Neutral
		4	Negative
		5	Very negative

36.17 Page: F3.E Other technologies -2 (PGID 6540967)

Another pilot project collects data not only on traffic violations, but also, e.g. whether payments are done in a timely manner, whether garbage is deposited correctly or whether the people behave well on social media platforms: whether they pay their online purchases on time or whether they honor reservations (taxis, restaurants, etc.) they made online. All these items are summarized in a score. People with a good score would get certain benefits. For people with a bad score certain services would be cut, e.g. they could not book high-speed trains anymore. You could also see the score of other people and thus know how trustworthy they are. How do you evaluate/view this proposal? (q_10723196 - Type 111)

Variable name	External variable name	int	F3.E3
v_695	F3.E3		
		1	Very positive
		2	Positive
		3	Neutral
		4	Negative
		5	Very negative

Some people say that this plan would be very effective to improve trust between strangers in our society. How much would you agree with that? (q_10723197 - Type 111)

Variable name	External variable name	int	F3.E4
v_696	F3.E4		
		1	Strongly disagree
		2	Disagree a little
		3	Neither disagree nor agree
		4	Agree a little
		5	Strongly agree

36.18 Page: F3.E Other technologies -3 (PGID 6540968)

Some people say that this plan would reduce crimes very efficiently since violations can be punished immediately. How much would you agree with that? (q_10723198 - Type 111)

Variable name	External variable name	int	F3.E5
v_697	F3.E5		
		1	Strongly disagree
		2	Disagree a little
		3	Neither disagree nor agree
	

- | | |
|---|----------------|
| 4 | Agree a little |
| 5 | Strongly agree |

Some people say that this plan would help to boost the economy because business would be much easier if you know whom you can trust. How much would you agree with that? (q_10723199 - Type 111)

Variable name	External variable name	int	F3.E6
v_698	F3.E6		
		1	Strongly disagree
		2	Disagree a little
		3	Neither disagree nor agree
		4	Agree a little
		5	Strongly agree

36.19 Page: F3.E Other technologies -4 (PGID 6540969)

Some people say that such a system might be manipulated by hackers that would change the scores of people. How much would you be concerned about this? (q_10723200 - Type 111)

Variable name	External variable name	int	F3.E7
v_699	F3.E7		
		1	Very much
		2	
		3	
		4	
		5	Not at all

Some people feel that such a system raises privacy concerns. They say it is not good if there are persons who can know everything about you. How much would you be concerned about this? (q_10723201 - Type 111)

Variable name	External variable name	int	F3.E8

Now that you have learned a bit about the concerns that some people have and about the benefits that some people see, we want to ask you again: How do you evaluate/view this proposal? (q_10723204 - Type 111)

Variable name	External variable name	int	F3.E11
v_703	F3.E11		
		1	Very positive
		2	Positive
		3	Neutral
		4	Negative
		5	Very negative

36.21 Page: F3.E Other technologies -6 (PGID 6540971)

In another pilot project, a local government cooperates with a large IT company, using data provided by the company to score its citizens. Behavior such as not honoring a taxi reservation made through an app or leaving an online review in bad faith to harm a competitor can lower a person's score. A very low score means severe disadvantages for the person, such as no longer being allowed to head a company or not getting a loan. How do you evaluate this proposal? (q_10723205 - Type 111)

Variable name	External variable name	int	F3.E16
v_704	F3.E16		
		1	Very positive
		2	Positive
		3	Neutral
		4	Negative
		5	Very negative

Some people believe that private companies are not as trustworthy as the government and should not be involved in rating citizens. How much would you agree with that? (q_10723206 - Type 111)

Variable name	External variable name	int	F3.E17
v_705	F3.E17		
		1	Strongly disagree
		2	Disagree a little

- | | |

36.22 Page: F3.E Other technologies -7 (PGID 6540972)

In another city, the government collects data from various sources, including government records, data provided by private companies, and data provided by financial institutions. All this data is combined to generate a single score for each resident of the city. A person who has a low score can no longer get a loan. How do you evaluate this proposal? (q_10723208 - Type 111)

Variable name v_707	External variable name F3.E20	int	F3.E20

- | | |
|---|---------------|
| 1 | Very positive |
| 2 | Positive |
| 3 | Neutral |
| 4 | Negative |
| 5 | Very negative |

Some people in the banking sector believe that this is a bad idea. They argue that when financial and non-financial criteria are mixed and turned into a single score, they can no longer correctly assess whether someone will be able to repay a loan. They believe that scores rating people's social behavior and scores rating people's financial ability need to be kept strictly separate. How much would you agree with that? (q_10723209 - Type 111)

Variable name v_708	External variable name F3.E21	int	F3.E21
------------------------	----------------------------------	-----	--------
